

# RMacD.com Email Solutions

---

## Overview of email solutions

RMacD.com offers two mail types of service: Email forwarding and email hosting.

### Email forwarding

*Emails are forwarded automatically, from anyaddress@yourdomain.com to anyaddress@yourisp.com*

*For example, an email may be forwarded from tom@mygb.net to tom1959@hotmail.com*

All prices quoted are per month per domain, inc VAT.

	Under 10 addresses	10-100 addresses	100+ addresses
1-2 Domains	£0.25	£0.50	£1.25
3+ Domains (20% off)	£0.20	£0.40	£1.00

### Email hosting

*Emails stored on the RMacD.com servers, and accessed using POP/IMAP or the Web Mail interface.*

*Inboxes are normally limited to 1GB but can be uncapped, to an unlimited\* mailbox, for a nominal fee of £0.25 per mailbox per month.*

Prices quoted are per mailbox, per month, inc VAT. Note, this is **per mailbox** – a mailbox may have **more than one address** pointed at it.

	Under 10 addresses	10-100 addresses (20% off)	100+ addresses (30% off)
1-2 Domains	£0.60	£0.48	£0.42
3+ Domains (20% off)	£0.48	£0.39	£0.34
<i>Uncapped</i>	<i>+£0.25</i>	<i>+£0.25</i>	<i>+£0.25</i>

### Combination hosting

Email can be managed using a combination hosting and forwarding, to provide a flexible solution tailored to your needs. Simply add the costs of both the projected number of mailboxes, and the projected number of forwards, to create the total.

*For example:*

$$\begin{aligned} &8x \text{ hosted mailboxes and } 15x \text{ forwards (on one domain)} \\ &= (£0.60 \times 8) + £0.50 \\ &= £5.30 \text{ per month} \end{aligned}$$

Contact [ronald@rmacd.com](mailto:ronald@rmacd.com) for more information, or visit [rmacd.com/contact](http://rmacd.com/contact).

\* "Unlimited Mailboxes" subject to an Acceptable Use Policy of under 500MB incoming mail a month.

## What's Included

Every forwarding package includes the following:

- Intuitive web management interface to organise your forwards
- Redundant servers in the event of outages

In addition, every hosted package includes the following:

- Access to your mail via POP/IMAP as well as by an intuitive enterprise web mail application
- Free MobileMail™ for your mobile phone via WAP/GPRS
- Bayesian spam filtering, to quickly learn your spam from your ham
- Fast, accurate virus removal and mail sanitation
- Synchronisation with Hotmail, Yahoo, and Outlook accounts to retrieve your mail 'remotely'
- Optional brandable web mail interfaces (for a small one-off fee of £20)
- Many more features, including vacation notices, e-alarms, calendar and file sharing via e-briefcase.
